Indonesia	03/03/2025	<a href="#">G/TBT/N/IDN/178</a>	Regulations of The Minister of Marine Affairs and Fisheries Number 33 of 2024 Concerning The Release of Fishery Products From The Territory of The Republic of Indonesia	The Ministry of Marine Affairs and Fisheries of the Republic of Indonesia, as the Competent Authority for the quality and safety of fish and fishery products, has initiated a reorganization with the establishment of the Marine and Fisheries Quality Assurance Agency (MFQAA). This agency has been tasked with implementing its duties as the Competent Authority according to President Regulation No. 38 of 2023 and President Regulation No. 193 of 2024. The MFQAA's role as a quality assurance body for fish and fishery products includes new tasks and a broader scope of work. This encompasses nine certification schemes that cover the entire supply chain, from upstream to downstream, as follows : 1. Good Handling Practices (including onboard fishing vessels) 2. Good Hatchery Practices 3. Good Aquaculture Practices 4. Good Fish-Feed Production Practices 5. Good Fish-Drugs Production Practices 6. Good Fish-Drugs Distribution Practices 7. Good Manufacturing Practices 8. Hazard Analysis Critical Control Point (HACCP) (including onboard fishing vessels) 9. Good Fish/Fishery Product Distribution PracticesFurthermore, the Minister of Marine Affairs and Fisheries' Regulation No. 16 of 2024 grants MFQAA full authority to provide guidance and enforce controls related to the quality and safety of fish and fishery products. This is crucial for issuing Health Certificates (HC) of Quality and Safety for fish and fishery products in Indonesia. In accordance with Minister Regulation No. 33 of 2024, which pertains to the export of fish and fishery products from the territorial waters of the Republic of Indonesia, the government has established a standard model or format for the HC of Quality and Safety. This certificate is mandatory for export consignments to ensure compliance with the food safety standards of the importing countries. This notification is important to ensure that the Competent Authorities or border control officials in the importing countries recognize the new HC format for Quality and Safety of fish and fishery products from Indonesia. This recognition will help avoid non-technical delays that could lead to damage to the products and potentially disrupt trade and cause economic loss.	01.06; 02.08; 03.01; 03.02; 03.03; 03.04; 03.05; 03.06; 03.07; 03.08; 03.09; 05.11; 12.12; 13.02; 15.04; 16.03; 16.04; 16.05; 19.01; 19.02; 21.03; 23.01	0307 - Molluscs, fit for human consumption, even smoked, whether in shell or not, live, fresh, chilled, frozen, dried, salted or in brine; 0302 - Fish, fresh or chilled (excl. fish fillets and other fish meat of heading 0304); 0303 - Frozen fish (excl. fish fillets and other fish meat of heading 0304); 0304 - Fish fillets and other fish meat, whether or not minced, fresh, chilled or frozen; 0305 - Fish, fit for human consumption, dried, salted or in brine; smoked fish, fit for human consumption, whether or not cooked before or during the smoking process; 0306 - Crustaceans, whether in shell or not, live, fresh, chilled, frozen, dried, salted or in brine, even smoked, incl. crustaceans in shell cooked by steaming or by boiling in water; 0106 - Live animals (excl. horses, asses, mules, hinnies, bovine animals, swine, sheep, goats, poultry, fish, crustaceans, molluscs and other aquatic invertebrates, and microorganic cultures etc.); 0308 - Aquatic invertebrates other than crustaceans and molluscs, live, fresh, chilled, frozen, dried, salted or in brine, even smoked; 0309 - Flours, meals and pellets of fish, crustaceans, molluscs and other aquatic invertebrates, fit for human consumption; 0511 - Animal products n.e.s.; dead animals of all types, unfit for human consumption; 1212 - Locust beans, seaweeds and other algae, sugar beet and sugar cane, fresh, chilled, frozen or dried, whether or not ground; fruit stones and kernels and other vegetable	67.120.30 - Fish and fishery products
United States of America	03/03/2025	<a href="#">G/TBT/N/USA/2123/Rev.1/Add.1</a>	2025 Updates to Oregon's Clean Truck Rules	The Oregon Department of Environmental Quality (DEQ) is holding the second of three rulemaking advisory committee meetings on the 2025 updates to Oregon's Clean Truck Rules on Friday, 7 March, from 9 a.m. to 1 p.m. Pacific Time). The focus of this meeting will be on the Advanced Clean Trucks proposed draft rules. The proposed updates would make permanent, temporary rules adopted by the Environmental Quality Commission in November 2024. They incorporate recent California amendments to the Advanced Clean Trucks Rule and delay implementation of the Heavy-Duty Low NOx Omnibus Rules by one year. The ACT Rule requires manufacturers to produce and deliver a certain percentage of new zero-emission medium- and heavy-duty vehicles over the next 10 years. The Low NOx Omnibus Rules require conventionally fueled heavy-duty engine and vehicle manufacturers to meet tougher oxides of nitrogen and particulate matter emission standards. DEQ has appointed an advisory committee to review issues related to the proposed rules. The focus of the second committee meeting will be on the Advanced Clean Trucks proposed draft rules. Details are as follows: 7 March 2025, 9 a.m. - 1 p.m. Pacific TimeJoin via ZoomCall in number: +1 888 475 4499 U.S. Toll-free Meeting ID: 815 9977 8779 Passcode: 940457This meeting will be open to the public. Typically, community members may attend committee meetings, but only to observe and not to actively participate. For this meeting, the committee has designated time on the agenda to hear community members' comments as time allows. Visit DEQ's website to view the agendaTo learn more about this rulemaking and the advisory committee, view the rulemaking web page at: Clean Truck Rules 2025Helpful documents:Advanced Clean Trucks and Heavy-Duty Omnibus Temporary Rules Staff Report, November 2024 Frequently Asked Questions – Heavy-Duty Low NOx Omnibus RulesFrequently Asked Questions – Advanced Clean Trucks RuleCalifornia's Advanced Clean Trucks Rule amendments, adopted October 2024To receive future email notices about this rulemaking, please sign up at: GovDelivery	Heavy-duty engines; Environmental protection (ICS code(s): 13.020); Transport exhaust emissions (ICS code(s): 13.040.50)	13.020 - Environmental protection; 13.040.50 - Transport exhaust emissions; 13.020 - Environmental protection; 13.040.50 - Transport exhaust emissions

Philippines	05/03/2025	<a href="#">G/TBT/N/PHL/342</a>	Implementing Guidelines on the Registration of Chemical Pharmaceutical Products for Human Use Applied for Marketing Authorization in accordance with Administrative Order No. 2024-0013 "General Rules and Regulations on the Registration of Pharmaceutical Products and Active Pharmaceutical Ingredients Intended for Human Use"	Republic Act (RA) No. 9711, otherwise known as the Food and Drug Administration (FDA) Act of 2009, mandated strengthening the FDA as the Philippines' national regulatory agency that shall safeguard public health by ensuring the safety, efficacy, and quality of pharmaceutical products. From this ground stands the continuous action of the agency in developing its systems that are vital in drug product regulation. Moreover, under RA No. 11032, also known as the Ease of Doing Business and Efficient Government Service Delivery Act of 2018, the FDA has inclined itself toward restructuring its procedures to promote efficiency in government service delivery and transparency. Consistent with these laws, Administrative Order (AO) No. 2024-0013, titled "General Rules and Regulations on the Registration of Pharmaceutical Products and Active Pharmaceutical Ingredients for Human Use" was issued. This Order outlines the guidelines for obtaining a Certificate of Product Registration (CPR) for pharmaceutical products, covering marketing authorization, DOH-Use-Only, and foreign donations. It updates the procedures established by AO No. 67 s. 1989, addressing gaps in registration and aligning regulations with current international standards, emphasizing the need to modernize the process for pharmaceutical product registration. AO No. 2024-0013 embodies the different modern frameworks and strategies recommended for the effective evaluation and approval process relevant to reviewing the quality, safety, and efficacy of pharmaceutical products. These include the harmonized regulatory requirements among Association of Southeast Asian Nations (ASEAN) member states through the adoption of the ASEAN Common Technical Dossier (ACTD) and Common Technical Requirements (ACTR), the collaborative procedure for the accelerated registration of World Health Organization (WHO)-prequalified pharmaceutical products, ASEAN Joint Assessment Procedure, and the abridged and verification procedures for the facilitated registration pathways (FRPs). As part of realizing the provisions set forth by AO No. 2024-0013, this Circular hereby provides the implementing guidelines including procedures, standards for evaluation, and requirements for registration applications for the marketing authorization of chemical pharmaceutical products for the guidance of all concerned stakeholders. Israel	06/03/2025	<a href="#">G/TBT/N/ISR/1364</a>	SI 1279 Part 1 - Wheelchairs: Hand-propelled chairs	The existing Mandatory Standard, SI 1279 part 1, dealing with hand-propelled wheelchairs, shall be declared voluntary. This declaration aims to remove unnecessary trade obstacles and lower trade barriers. Hand-propelled wheelchairs are listed in Israel Medical Devices Law 5772-2012, which requires pre-registration and compliance with the regulations of the EU, US or other developed countries. The registration process in Israel's Medical Devices Register is sufficient, and there is no need for duplication or regulatory overlap. This standard is in an advanced revision stage, as notified in G/TBT/N/ISR/1318 on 21 February 2024. If the revision process matures and is published in the Israel Official Gazette, the declaration as a voluntary standard will also apply to the revised standard. Rwanda	10/03/2025	<a href="#">G/TBT/N/RWA/1173/Corr.1</a>		This document delays the effective date of a recently published final rule (notified as G/TBT/N/USA/1122/Rev.1/Add.2) amending the test procedures for compressors. The Department of Energy (DOE) also seeks comment on any further delay of the effective date, including the impacts of such delay, as well as comment on the legal, factual, or policy issues raised by the rule. As of 7 March 2025, the effective date of the rule amending 10 CFR part 431 published at 90 FR 5538 on 17 January 2025, is delayed until 20 May 2025. The incorporation by reference approval published at 90 FR 5538 on 17 January 2025, is delayed to 20 May 2025. Written comments and information will be accepted on or before 28 March 2025. 90 Federal Register (FR) 11465, 7 March 2025; Title 10 Code of Federal Regulations (CFR) Part 431 <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-07/html/2025-03464.htm">https://www.govinfo.gov/content/pkg/FR-2025-03-07/html/2025-03464.htm</a> <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-07/pdf/2025-03464.pdf">https://www.govinfo.gov/content/pkg/FR-2025-03-07/pdf/2025-03464.pdf</a> This action and previous actions notified under the symbol G/TBT/N/USA/1122/Rev.1 are identified by Docket Number EERE-2022-81-TP-0019. Kyrgyz Republic	10/03/2025	<a href="#">G/TBT/N/KGZ/3/Rev.4</a>	Draft amendments to the Technical Regulation of the Eurasian Economic Union «On safety of attractions» (TR EAEU 038/2016) in terms of the establishment of forms, schemes, and procedures for conformity assessment based on standard conformity assessment schemes	- establishment of forms, schemes and procedures for conformity assessment based on standard conformity assessment schemes (the Decision of the Council of the Eurasian Economic Commission No. 44 (April 18, 2018)); - bringing the provisions of TR EAEU 038/2016 in terms of conformity assessment in accordance with the provisions of the Protocol on Technical Regulation in the Eurasian Economic Union (Annex No. 9 to the Treaty on the Eurasian Economic Union of May 29, 2014);  - clarification of individual provisions of TR EAEU 038/2016 in terms of conformity assessment based on the results of the practice of applying EAEU TR 038/2016.  In this document, the Federal Communications Commission (Commission or FCC) expands unlicensed very low power (VLP) device operation to the entire 6 gigahertz (GHz) band (5.925-7.125 megahertz (MHz)). The VLP devices will operate with the same power levels and other technical and operational requirements that apply to VLP devices in the U-NII-S (5.925-6.425 MHz) and U-NII-7(6.525-6.875 MHz) portions of the 6 GHz band. These technical and operational requirements are designed to prevent the licensed services that operate in the 6 GHz band from experiencing harmful interference. The Commission's actions will provide additional spectrum for high-throughput, low latency operations for these versatile portable devices.This final rule is effective 5 May 2025.90 Federal Register (FR) 11373, 6 March 2025; Title 47 Code of Federal Regulations (CFR) Parts 2 and 15 <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-06/html/2025-02962.htm">https://www.govinfo.gov/content/pkg/FR-2025-03-06/html/2025-02962.htm</a> <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-06/pdf/2025-02962.pdfhttps://docs.fcc.gov/public/attachments/FCC-24-254.pdf#this%20rule%20is%20identified%20by%20ETDocketNo.%2018-295-and%20GNOrderNo.%2017-183&amp;EC=24-125">https://www.govinfo.gov/content/pkg/FR-2025-03-06/pdf/2025-02962.pdfhttps://docs.fcc.gov/public/attachments/FCC-24-254.pdf#this%20rule%20is%20identified%20by%20ETDocketNo.%2018-295-and%20GNOrderNo.%2017-183&amp;EC=24-125</a> . These types of syringes are listed in Israel Medical Devices Law 5772-2012, which requires pre-registering in a Recognized Country and presenting a CE or FDA certification proving compliance with European and/or US medical devices regulations or other recognized regulatory bodies. The registration process in the Medical Devices Register is sufficient, and there is no need for regulatory duplication or overlap.	Sterile hypodermic syringes for single use (HS code(s): 901831; 901832); (ICS code(s): 11.040.25)	901832 - Tubular metal needles and needles for sutures, used in medical, surgical, dental or veterinary sciences; 901831 - Syringes, with or without needles, used in medical, surgical, dental or veterinary sciences	11.040.25 - Syringes, needles and catheters
Kenya	10/03/2025	<a href="#">G/TBT/N/KEN/1772</a>	DKS 3034: 2025 Lupin beans — Specification	This Kenyan Standard specifies requirements, sampling and test methods for dry lupin beans (Lupinus. albuslupinus. mutabilis, and Lupinus. angustifolius) intended for human consumption  The existing Mandatory Standard, SI 12402 part 1, dealing with lifejackets for seagoing ships, shall be declared voluntary. This declaration aims to remove unnecessary trade obstacles and lower trade barriers. The standard adopts the International Maritime Organization - IMO: Life-Saving Appliance (LSA) Code: Edition 2017, concerning life jackets only. The standard does not define safety requirements for a consumer product available to the general public but for professional life-saving equipment onboard ships.	- Beans (Vigna spp., Phaseolus spp.): (HS code(s): 07133); Cereals, pulses and derived products (ICS code(s): 67.060)	07133 - Beans (Vigna spp., Phaseolus spp.):	67.060 - Cereals, pulses and derived products
Israel	10/03/2025	<a href="#">G/TBT/N/ISR/1365</a>	SI 12402 Part 1 - Personal flotation devices: Lifejackets for seagoing ships - Safety requirements	These vests are subject to various international regulations, such as SOLAS (Safety of Life at Sea) - International Convention for the Safety of Life at Sea, 1974, enforced by the authority of the Shipping and Ports Authority, Ministry of Transport and Road Safety.  Furthermore, the standard is classified under import group No. 4 for goods intended for use in industry or professionals only, not by the consumer. Therefore, it is exempt from pre-import approval and inspections.	Personal flotation devices - Lifejackets for seagoing ships (HS code(s): 630720); (ICS code(s): 13.340.70)	630720 - Life jackets and life belts, of all types of textile materials	13.340.70 - Lifejackets, buoyancy aids and flotation devices
Israel	10/03/2025	<a href="#">G/TBT/N/ISR/1368</a>	SI 1268 Part 5 - Syringes and needles: Sterile single-use syringes, with or without needle, for insulin	The existing Mandatory Standard, SI 1268 part 5, dealing with sterile single-use syringes for insulin, shall be declared voluntary. This declaration aims to remove unnecessary trade obstacles and lower trade barriers. These types of syringes are listed in Israel Medical Devices Law 5772-2012, which requires pre-registering in a Recognized Country and presenting a CE or FDA certification proving compliance with European and/or US medical devices regulations or other recognized regulatory bodies. The registration process in the Medical Devices Register is sufficient, and there is no need for regulatory duplication or overlap.	Sterile single-use syringes, with or without needle, for insulin (HS code(s): 901831; 901832); (ICS code(s): 11.040.25)	901832 - Tubular metal needles and needles for sutures, used in medical, surgical, dental or veterinary sciences; 901831 - Syringes, with or without needles, used in medical, surgical, dental or veterinary sciences	11.040.25 - Syringes, needles and catheters

United States of America	10/03/2025	<a href="#">G/TBT/N/USA/2096/Add.2</a>	Allocation of Spectrum for Non-Federal Space Launch Operations	<p>In this document, the Federal Communications Commission (Commission) implements certain provisions of the Launch Communications Act (LCA) enacted 26 September 2024, governing the authorization and facilitation of commercial space operations in the 2025-2110 MHz, 2200- 2290 MHz, and 2360-2395 MHz bands (collectively, the LCA bands). To meet this statutory mandate, the Commission builds upon its action in the September 2023 Second Report and Order which, among other things, reallocated the 2025-2110 MHz and 2200-2290 MHz bands for non-Federal Space Operation on a secondary basis and adopted, for these two bands, space launch licensing framework. Specifically, the Commission reallocates the 2360-2395 MHz band on a secondary basis for Space Operation. Next, the Commission incorporates the 2360-2395 MHz band into its existing part 26 space launch regulatory framework that includes, for example, space launch licensing and frequency coordination rules. In order to protect critical Federal and non-Federal flight testing operations, we incorporate into our certain technical rules from our current. Finally, the Commission confirms that the specific licensing, registration, frequency coordination, and frequency coordinator selection procedures, to be refined by the Wireless Telecommunications Bureau (Bureau or WTB) on delegated authority, will apply to the LCA bands. The rules are effective 7 April 2025, except for amendatory instruction 9 (adding Sec. 26.202(d)), which is indefinitely delayed. The Federal Communications Commission will publish a document in the Federal Register announcing the effective date of this rule section.90 Federal Register (FR) 11480, 7 March 2025; Title 47 Code of Federal Regulations (CFR) Part 2 and 26 https://www.govinfo.gov/content/pkg/FR-2025-03-07/html/2025-02961.htmhttps://www.govinfo.gov/content/pkg/FR-2025-03-07/pdf/2025-02961.pdfhttps://docs.fcc.gov/public/attachments/FCC-24-132A1.pdfThis final rule is identified by ET Docket No. 13-115 and FCC 24-132. The Docket Folders are available on the FCC's website (links above) and provide access to associated documents. Comments are accessible from the FCC's Electronic Comment Filing System (ECFS) at https://www.fcc.gov/ecfs/search/search-filings/results?q=(proceedings.name:(%2213-115%22)).</p> <p>The Turkish Food Codex Regulation on Microbiological Criteria was notified in G/TBT/N/TUR/205 (12 January 2023) and published in the Official Gazette dated February 13, 2025.</p> <p>Indicator microorganisms such as Enterobacteriaceae, E. coli in some product groups in the notified draft regulation were removed and pathogenic microorganisms such as Salmonella, E. coli O157, L. monocytogenes were added instead. The Regulation shall apply from 13 February 2025. China	12/03/2025	<a href="#">G/TBT/N/CHN/2012</a>	National Standard of the P.R.C., Fall protection—Safety nets	<p>This document applies to safety nets used in industries such as construction, water conservancy, highway, electric power, shipbuilding, chemical industry, mining, ports, amusement venues, and others, to prevent the falling of people or objects or to restrict the movement of people during construction and equipment operation.</p> <p>The Oregon Department of Environmental Quality (DEQ) is holding the last of three rulemaking advisory committee meetings on the 2025 updates to Oregon's Clean Truck Rules on Monday, 17 March from 9 a.m. to 1 p.m. Pacific Time). The focus of this meeting will be to discuss draft rule language, including potential solutions for the current challenges facing Class 7 and 8 trucks, while maintaining the Advanced Clean Trucks Rule's integrity. Also during this meeting, the committee will review the draft Fiscal Impact Statement for proposed amendments to both the Advanced Clean Trucks and Heavy-Duty Low NOx Omnibus rules. The proposed updates would make permanent, temporary rules adopted by the Environmental Quality Commission in November 2024. They incorporate recent California amendments to the Advanced Clean Trucks Rule and delay implementation of the Heavy-Duty Low NOx Omnibus Rules by one year. The ACT Rule requires manufacturers to produce and deliver a certain percentage of new zero-emissions medium- and heavy-duty vehicles over the next 10 years. The Low NOx Omnibus Rule requires conventionally fueled heavy-duty engine and vehicle manufacturers meet tougher oxides of nitrogen and particulate matter emissions standards. DEQ has appointed an advisory committee to review issues related to the proposed rules. Details are as follows: 17 March 2025, 9 a.m. - 1 p.m. Pacific TimeJoin via ZoomCall-in number: +1 888 475 4499 U.S. Toll-free Meeting ID: 854 4556 5096</p> <p>Passcode: 727154This meeting will be open to the public. Typically, community members may attend committee meetings, but only to observe and not to actively participate. For this meeting, the committee has designated time on the agenda to hear community members' comments as time allows. Visit DEQ's website to view the agendaTo learn more about this rulemaking and the advisory committee you can view the rulemaking web page at Clean Truck Rules 2025Helpful documents:Advanced Clean Trucks and Heavy-Duty Omnibus Temporary Rules Staff Report, November 2024Frequently Asked Questions – Heavy-Duty Low NOx Omnibus RulesFrequently Asked Questions – Advanced Clean Trucks RuleCalifornia's Advanced Clean Trucks Rule amendments, adopted October 2024To receive future email notices about this rulemaking, please sign up at: GovDelivery</p>	safety nets(HS code(s): 847989); (ICS code(s): 13.340.99)	847989 - Machines and mechanical appliances, n.e.s.	13.340.99 - Other protective equipment

China	12/03/2025	<a href="#">G/TBT/N/CHN/2014</a>	National Standard of the P.R.C., Fall protection—Energy absorbers	This document specifies the classification, technical requirements, test methods, inspection rules, permanent marking, and information provided by the manufacturer for energy absorbers. This document applies to energy absorbers used for protecting against falls from heights. Australia's Illegal Logging Prohibition Amendment (Strengthening Measures to Prevent Illegal Timber Trade) Act 2024 amends the Illegal Logging Prohibition Act 2012 to clarify certain offences; introduce additional enforcement mechanisms; introduce powers to allow the testing of timber products using timber identification technologies; introduce powers allowing the publication of details of certain offences; and allow the Minister to make rules prescribing certain matters permitted by the Act.The Illegal Logging Prohibition Rules 2024prescribe due diligence requirements for Australian importers and processors of regulated timber products to reduce the risk of illegally logged timber entering the Australian market. The Rules replace the earlier Illegal Logging Prohibition Regulation 2012 which prescribed similar due diligence requirements. Australian importers and processors must put in place a due diligence system; gather information before importing or processing a regulated timber product; identify and assess the risk that the regulated timber product(s) has been illegally logged; and mitigate the risk of importing illegally logged regulated timber products. These legislative reforms are directed towards Australian importers and processors. The reforms are not expected to have impacts on legally harvested and exported regulated timber products into Australia. For the first six months of the Rules being in effect (from 3 March 2025 – early September 2025), the Australian government will focus on education and guidance to support Australian importers and processors in complying with new due diligence requirements. On a case-by-case basis, the Australian Government proposes to conduct audits in relation to whether an importer or processor has complied with the due diligence requirements for importing regulated timber products or processing raw logs. If WTO members wish to provide feedback on the reformed legislation, please do so within the 60 days following this notification date. Feedback will be considered and included as necessary in future revisions to ensure the reformed legislation is effective minimising the risk of creating unnecessary impost to Australia's trading partners. Additionally, the Australian Government will be updating Country Specific Guidelines early in operation of the reforms. This presents an additional opportunity for WTO members to provide feedback, recognising the importance of bilateral cooperation in addressing the damage caused by illegal logging globally.	energy absorbers(HS code(s): 847989); (ICS code(s): 13.340.99)	847989 - Machines and mechanical appliances, n.e.s.	13.340.99 - Other protective equipment

Denmark	13/03/2025	<a href="#">G/TBT/N/DNK/138</a>	The Legislation on the Autonomous Robots (Bekendtgørelse om forsøg med og test af selvkrørende enheder)	The legal draft will make it possible to use and test autonomous robots. Municipalities will be able to designate areas as test zones where tests of the robots can be carried out. This will continue to be a trial scheme, where a permit from the Danish Road Traffic Authority is required before an autonomous robot can be tested in a designated test zone. It will be a specific road safety assessment whether a permit can be granted, based on a specific assessment of the autonomous robot and any planned safety measures. With the legal draft, there will no longer be any restrictions on weight and dimensions for the autonomous robot. The weight and dimensions of the autonomous robot will instead be weighed on a case-by-case basis depending on the specific application. The legal draft clarifies that an autonomous robots must comply with applicable legislation during the entire trial or test period, including the rules in the Machinery Directive.  The Ministry of Health announced the new draft of Regulations relating to health warnings displayed on tobacco and smoking Products. These regulations follow the Ninth Amendment of the Law Prohibiting Advertising and Restricting the Marketing of Tobacco and Smoking Products, 5743-1983, published on March 27, 2024, According to Section 9C1 of the Law, a person shall not market a smoking product unless an image of the harms of smoking is displayed on the package or packaging. Furthermore, subsection (b) states that the Minister of Health, with the approval of the Knesset's Economics Committee, will determine the images to be displayed, including the required instructions, their size and shape, their location on the packaging, and the frequency of their replacement. These draft regulations provide all the health warnings that should be displayed on the packaging of smoking products, including the wording of the health warnings, a database of images illustrating the damage of smoking and passive smoking that matches the verbal warnings, and the design of the smoking product. These proposed regulations replace previous Order provisions. An amendment to the Order, cancelling its provisions, will be published simultaneously and notified separately.	Autonomous robots. China	13/03/2025	<a href="#">G/TBT/N/CHN/2029</a>	National Standard of the P.R.C., Requirements for toxic, harmful and restricted substance in personal protective equipment	This document specifies the safety requirements for toxic, hazardous, and restricted substances in personal protective equipment and describes the test methods.  This document applies to the key chemical hazards in personal protective equipment.	Personal protective equipment (HS code(s): 420329; 621010; 630720; 630790; 650610); (ICS code(s): 13.340.01)	650610 - Safety headgear, whether or not lined or trimmed; 630790 - Made-up articles of textile materials, incl. dress patterns, n.e.s.; 420329 - Gloves, mittens and mitts, of leather or composition leather (excl. special sports gloves); 621010 - Garments made up of felt or nonwovens, whether or not impregnated, coated, covered or laminated (excl. babies' garments and clothing accessories); 630720 - Life jackets and life belts, of all types of textile materials	13.340.01 - Protective equipment in general
European Union	13/03/2025	<a href="#">G/TBT/N/EU/1117</a>	Draft Commission Implementing Regulation approving 2-methyl-2H-isothiazol-3-one (MIT) as an existing active substance for use in biocidal products of product-type 6 in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council	This draft Commission Implementing Regulation approves 2-methyl-2H-isothiazol-3-one (MIT) as an existing active substance for use in biocidal products of product-type 6	Biocidal products		71.100 - Products of the chemical industry
European Union	13/03/2025	<a href="#">G/TBT/N/EU/1120</a>	Draft Commission Implementing Decision on the non-approval of certain active substances for use in biocidal products in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council	This draft Commission Implementing Decision does not approve certain active substances in biocidal products pursuant to Regulation (EU) No 528/2012 of the European Parliament and of the Council. For these active substance/product-type combinations included in the review programme of existing active substances listed in Annex II to Regulation (EU) No 1062/2014, all the participants have withdrawn or are considered to have withdrawn their support. For these active substances either the role of participant had previously been taken over or not. For those that the role of participant had not previously been taken over, no notification has been submitted to the European Chemicals Agency. Therefore, all these active substance/product-type combinations should not be approved for use in biocidal products.  Main content of the regulations it should not be possible to sell or otherwise commercially distribute nitrous oxide if there is particular cause to assume that it will be used as an intoxicant. A maximum of 18 grams per purchase of nitrous oxide should be allowed to be sold or otherwise supplied for commercial purposes to a private individual. The sale or supply should not involve more than two containers containing more than nine grams of nitrous oxide per container. This quantity limit should apply only to private individuals and not to sales to business operators. Likewise, nitrous oxide may not be sold or otherwise distributed through business activities to people under the age of 18. The import of nitrous oxide (laughing gas) should be regulated by an equivalent quantity limit and age requirement. Marketing nitrous oxide in contravention of the prohibitions and restrictions set out in the new Act should be prohibited. Retail sales of nitrous oxide should be authorised only after notification of the sales to the responsible authority. It should be possible to monitor the provisions in the new Act and regulations issued in connection with it. It should be possible to charge fees for the registration and monitoring of nitrous oxide sales. Anyone who intentionally or negligently sells or provides nitrous oxide in contravention of certain provisions of the Act should be sentenced to a fine or imprisonment for at most six months for unlawful handling of nitrous oxide. Medical nitrous oxide (laughing gas) is already covered by appropriate pharmaceutical legislation and should not be covered by the new Act on Nitrous Oxide impact analysis. A number of the regulations on nitrous oxide could constitute measures that impede trade. These include the proposals on notification requirements for retail trading, age requirements, a quantity limit for sales to private individuals, the ban on the sale of nitrous oxide as an intoxicant, and the possibility to charge fees for notification and monitoring. Nitrous oxide is a substance that can cause serious health risks and death. Its use as an intoxicant has increased substantially in recent years. The measures proposed can therefore be justified by the interest of protecting human health or life. The measures proposed for nitrous oxide will apply to both Swedish and foreign actors, regardless of whether sales are conducted in physical shops or on the internet. Although the measures are aimed at activities on Swedish territory – points of sale in Sweden and import into Sweden – they apply equally regardless of who carries out the activities. The measures are therefore not discriminatory. A duty of notification is necessary to be able to monitor nitrous oxide sales. This duty of notification is less restrictive than other options such as a licence requirement. The age requirement is necessary to prevent children and young people from using nitrous oxide as an intoxicant. The ban on the sale of nitrous oxide as an intoxicant and the quantity limit are necessary to protect public health – particularly the health of children and young people. The regulation is designed to fulfil the purpose of the Act. The measures are less restrictive than other options such as a total ban on the sale of nitrous oxide. The sale of nitrous oxide for cooking, for example, should continue to be allowed in retail outlets with certain quantity limits to private individuals. The sale of nitrous oxide to business operators should not be covered by the quantity limit.  Draft Commission Regulation amending Annex II to Regulation (EC) No 1925/2006 of the European Parliament and of the Council and Annex II to Directive 2002/46/EC of the European Parliament and of the Council as regards monosodium salt of L-5-methyltetrahydrofolic acid as a source of folic acid added to foods and as a source of folate used in the manufacture of food supplements	Biocidal products and treated articles treated with or incorporating biocidal products		71.100 - Products of the chemical industry

United States of America	14/03/2025	<a href="#">G/TBT/N/USA/1833/Add.4</a>	Energy Conservation Program: Proposed Determination of Miscellaneous Gas Products as a Covered Consumer Product	<p>As part of its implementation of the Executive Order, "Unleashing American Energy" (20 January 2025), the U.S. Department of Energy ("DOE") is reviewing existing agency actions to ensure, among other things, that all regulatory requirements related to energy are grounded in clearly applicable law and that the American people's freedom to choose from a variety of goods and appliances is not restricted. As a result of this review, DOE is proposing to withdraw its prior determination that miscellaneous gas products ("MGPs"), which are comprised of decorative hearths and outdoor heaters, qualify as covered products under Part A of Title II of the Energy Policy and Conservation Act, as amended ("EPCA"). After further consideration of the relevant statutory authority and available information, DOE is proposing to withdraw its determination that MGPs are covered products under EPCA for which DOE is authorized to establish test procedures and energy conservation standards. Written comments, data, and information are requested and will be accepted on or before 14 April 2025.90 Federal Register (FR) 11908, 13 March 2025: <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-13/html/2025-03839.htm">https://www.govinfo.gov/content/pkg/FR-2025-03-13/html/2025-03839.htm</a></p> <p><a href="https://www.govinfo.gov/content/pkg/FR-2025-03-13/pdf/2025-03839.pdf">https://www.govinfo.gov/content/pkg/FR-2025-03-13/pdf/2025-03839.pdf</a> This action is identified by Docket Number EERE-2025-BT-DET-0002. Canada	14/03/2025	<a href="#">G/TBT/N/CAN/709/Add.1</a>	Certain Products Containing Toxic Substances Regulations	<p>The proposed regulatory measures notified in G/TBT/N/CAN/709 (dated November 20, 2023) were adopted and published on March 12, 2025, as the Certain Products Containing Toxic Substances Regulations (the Regulations). The Regulations seek to reduce releases of toxic substances from products used in Canada to levels that are protective of the environment and human health. The Regulations prohibit the manufacture, import and sale of certain coal tar-based sealant products and certain sealants containing polycyclic aromatic hydrocarbon levels above 1000 parts per million in 2025. The Regulations also contain exemptions to the prohibitions, a transition period for certain sectors, and general provisions for permits and record keeping. The Regulations also manage the risks posed by 2-butoxyethanol, a toxic substance that is currently regulated under the 2-Butoxyethanol Regulations, which is repealed and amalgamated under this initiative. The Regulations are designed as a single vehicle to manage the risks associated with multiple ecological and health toxic substances in products over the coming years. The Regulations come into force on the day on which they are registered.</p>	<p>Sealant products containing coal tars and their distillates, including pavement sealant products, roofing sealant products, and sealant products for industrial use on metal, structural steel or concrete components or on pipelines or other buried services; Sealant products containing polycyclic aromatic hydrocarbons (PAHs) whose total PAH concentration exceeds 1000 parts per million (ppm), including pavement sealant products and roofing sealant products; Products for indoor use containing 2-butoxyethanol (2-8E) above a specified concentration limit, including automobile cleaner other than automobile degreaser or internal engine cleaner; rug or carpet cleaner; floor or baseboard stripper; paint stripper or thinner; laundry stain remover; any aerosol cleaner other than a pump-spray cleaner; any cleaner other than a non-aerosol cleaner; aerosol paint or coating other than a pump-spray paint or coating; and non-aerosol paint or coating.</p>	91.100.50 - Binders. European Union	17/03/2025	<a href="#">G/TBT/N/EU/1123</a>	Draft Commission Implementing Decision repealing Implementing Decision (EU) 2024/2460 postponing the expiry date of the approval of metofluthrin for use in biocidal products of product-type 18 in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council	<p>This draft Commission Implementing Decision repeals the postponement of the expiry date of the approval of metofluthrin as an active substance for use in biocidal products of product type 18. On 25 October 2019, an application was submitted in accordance with Article 13(1) of the Regulation (EU) No 528/2012 of the European Parliament and of the Council (BPR) for the renewal of the approval of metofluthrin for PT18. On 25 November 2024 the Agency adopted its opinion on metofluthrin (renamed to epsilon-metofluthrin) for PT18, having regard to the conclusions of the evaluating competent authority. Given the opinion of the Agency, it is appropriate to renew the approval of epsilon-metofluthrin for PT18. Consequently, a draft Implementing Regulation is being prepared to renew the approval of epsilon-metofluthrin for PT18 (examination procedure under Regulation (EU) No 182/2011). Further to that Implementing Regulation, it is necessary to repeal the postponement of the expiry date of the approval of metofluthrin. The present draft Decision therefore intends to repeal Decision (EU) 2024/2460 postponing the expiry date of the approval of metofluthrin for PT18.</p>	Biocidal products	71.100 - Products of the chemical industry

It does not apply to foods exposed to doses imparted by measuring instruments used for inspection purposes	Processes in the food industry (ICS code(s): 67.020)	67.020 - Processes in the food industry
United States of America	18/03/2025	<a href="#">G/TBT/N/USA/2188</a>	Facilitating Opportunities for Advanced Air Mobility	Proposed rule - In this document, the Federal Communications Commission (FCC or Commission) proposes and seeks comment on changes to the rules that govern the operations of three distinct bands of spectrum, modernizing rules to facilitate opportunities for Advanced Air Mobility (AAM) and Uncrewed Aerial Systems (UAS). First, the Notice of Proposed Rulemaking (NPRM) proposes and seeks comment on opening up the 450 MHz band to aeronautical command and control operations, allowing for a single, nationwide license in the band, and adopting flexible licensing, operating, and technical rules that will facilitate robust use of the band at a range of altitudes while minimizing interference to neighboring operations. It also proposes expanding radiolocation operations in the 24.45-24.65 GHz band for uncrewed aircraft system detection operations. Finally, the NPRM proposes to modernize the Commission's legacy power rules for Commercial Aviation Air-Ground Systems in the 849-851 and 894-896 MHz band, which is used for in-flight connectivity.	450 MHz band to support Advanced Air Mobility (AAM) and Uncrewed Aerial Systems (UAS); Radiocommunications (ICS code(s): 33.060); Satellite (ICS code(s): 33.070.40); On-board equipment and instruments (ICS code(s): 49.090)	33.060 - Radiocommunications; 33.070.40 - Satellite; 49.090 - On-board equipment and instruments

Viet Nam	18/03/2025	<a href="#">G/TBT/N/VNM/343</a>	Draft National standard of Road vehicles - Two-wheeled motorcycles, mopeds - Limit of fuel consumption and method for evaluation	This draft standard specifies the requirements for fuel consumption limits and assessment methods for vehicle types and fleets of newly manufactured, assembled and imported two-wheeled motorcycles and mopeds. This standard applies to two-wheeled motorcycles and mopeds classified and marked as L3 and L1 in accordance with TCVN 8658. This draft notification proposes amendments to the list of hazardous substances under the Hazardous Substances Act. The revision includes modifications and additions to the list annexed to the Notification of the Ministry of Industry regarding the List of Hazardous Substances B.E. 2556 (2013) and its latest amendment B.E. 2565 (2022). The key changes are as follows: 1. Removal of hazardous substances controls (2 entries) (1) One entry from List 1.2, under the control of the Department of Agriculture (2) One entry from List 4.1, under the control of the Food and Drug Administration 2. Revision of Control measures (17 entries) (1) One entry from List 1.1, under the control of the Department of Agriculture (2) Four entries from List 1.2, under the control of the Department of Agriculture (3) One entry from List 4.1, under the control of the Food and Drug Administration (4) One entry from List 4.2, under the control of the Food and Drug Administration (5) Ten entries from List 5.1, under the control of the Department of Industrial Works 3. Addition of new hazardous substances controls (2 entries) (1) Two new entries on List 1.1, under the control of the Department of Agriculture This draft Standard specifies the requirements for fuel consumption limits for passenger cars up to 8 seats (excluding the driver's) and the method for assessing the average fuel consumption of newly manufactured, assembled and imported fleets. This draft Standard applies to passenger cars up to 8 seats (excluding the driver's) classified according to the regulations on road vehicle classification of the Minister of Transport, with the symbol M1 according to TCVN 6785, including: hybrid electric cars, battery electric cars, fuel cell electric cars, vehicles equipped with internal combustion engines using unleaded gasoline, E5 gasoline or diesel fuel. The draft Standard does not apply to: a) Vehicles manufactured, assembled, and imported under the management of the Ministry of Defense and the Ministry of Public Security; b) Vehicles produced and assembled from complete automobiles that have been certified for technical safety quality and environmental protection; c) Vehicles imported in accordance with international treaties to which the Socialist Republic of Vietnam is a member; d) Vehicles imported for scientific research, production support, display, or introduction at trade fairs and exhibitions; d) Vehicles designed and manufactured exclusively for the following purposes: racing cars in professional racetracks; vehicles used for recreational purposes in amusement parks; e) Vehicles under the temporary import regime for entities entitled to privileges and exemptions, in accordance with the separate regulations of the Government or the Prime Minister; f) Vehicles considered as gifts, presents, movable property, foreign aid vehicles; g) Vehicles under the temporary import for re-export, temporary export for re-import, transshipment, placed in bonded warehouses; in transit; h) Vehicles not participating in public transportation and operating only within a limited scope.	Motorcycles and mopeds (ICS code(s): 43.140)	43.140 - Motorcycles and mopeds

Kenya	18/03/2025	<a href="#">G/TBT/N/KEN/1782</a>	DKS 1758-2:2025 Horticulture Industry – Code of Practice Part 2: Fruits and Vegetables	This Draft Kenya Standard specifies the requirements for good practices for production and handling of fresh fruits, vegetables, herbs and spices. It applies to all operators in the industry including but not limited to; growers, propagators, consolidators, and transporters.	Fruits. Vegetables (ICS code(s): 67.080)	67.080 - Fruits. Vegetables
Israel	18/03/2025	<a href="#">G/TBT/N/ISR/1389</a>	Sports Driving Regulations (Provisions Regarding Importing Competition Vehicles and Spare Parts) (Amendment No ....), 5785-2025	The Ministry of Culture and Sport announced a new draft amendment to the Sports Driving Regulations (Provisions Regarding Importing Competition Vehicles and Spare Parts). As part of the Sports Driving Authority's activities, the import sector has gained an in-depth knowledge and understanding of the Israeli motorsports sector. Therefore, adjustments and corrections must reflect the current reality. This proposed amendment includes the following: Determines the method of applying to the Authority that grants a license, not a permit; Determines the conditions under which the competent Authority will grant permission for the personal import of a competitive vehicle and its spare parts; Determines the conditions for obtaining a commercial importer license for competitive vehicles and its spare parts; The addition of Regulation 14 (a)(7) clarifies and refines the end of Section 14 (a)(5), where there is concern that the competitive vehicle or spare parts are not intended for use in motorsports, which constitutes an activity contrary to the law.	Competition vehicles and spare parts (HS code(s): 8310; 8311; 8312; 8314)	8311 - Wire, rods, tubes, plates, electrodes and similar products, of base metal or of metal carbides, coated or cored with flux material, of a kind used for soldering, brazing, welding or deposition of metal or of metal carbides; wire and rods, of agglomerated base metal powder, used for metal spraying; 8310 - Sign-plates, name-plates, address-plates and similar plates, numbers, letters and other symbols, of base metal, excluding those of heading 94.05.

United States of America	19/03/2025	<a href="#">G/TBT/N/USA/2087/Add.3</a>	Emergency Alert System; Wireless Emergency Alerts	In this document, the Federal Communications Commission (Commission) revises the Wireless Emergency Alerts (WEA) rules to allow alert originators the option to send "silent alerts" that do not trigger WEA's common audio attention signal or vibration cadence. This action grants alert originators greater flexibility in tailoring how WEA messages are presented. Further, to make as clear as possible to the public that any device marketed as a "WEA-capable mobile device" adheres to the full suite of WEA capabilities, the Commission also adopts its proposals to define a "WEA-capable mobile device," for the purpose of compliance with the Commission's WEA requirements. The definitions of a WEA-capable mobile device and a mobile device for the purpose of WEA (section 10.10(l)) through (m)), along with conforming edits (to the introductory text of section 10.500, section 10.500(i)) through (j)), the introductory text of section 10.520, and the introductory text of section 10.530), will become effective 15 September 2025. The silent alert rules adopted herein (sections 10.490 and 10.530(d)) will become effective 18 March 2028.FCC Makes WEAs More Responsive to Public Safety and Consumer Needs: <a href="https://www.fcc.gov/document/fcc-makes-weas-more-responsive-public-safety-and-consumer-needs90">https://www.fcc.gov/document/fcc-makes-weas-more-responsive-public-safety-and-consumer-needs90</a> Federal Register (FR) 12462, 18 March 2025; Title 47 Code of Federal Regulations (CFR) Part 10 <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-18/html/2025-04126.htm">https://www.govinfo.gov/content/pkg/FR-2025-03-18/html/2025-04126.htm</a> <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-18/pdf/2025-04126.pdfhttps://docs.fcc.gov/public/attachments/FCC-25-1441.pdf">https://www.govinfo.gov/content/pkg/FR-2025-03-18/pdf/2025-04126.pdfhttps://docs.fcc.gov/public/attachments/FCC-25-1441.pdf</a> The final rule and previous actions notified under the symbol G/TBT/N/USA/2087 are identified by PS Docket Nos. 15-91 and 15-94FCC 25-14FCC 23-88 and FCC 24-83. Ukraine	19/03/2025	<a href="#">G/TBT/N/UKR/334</a>	Draft Resolution of the Cabinet of Ministers of Ukraine "On Amendments to Paragraph 2 of the Resolution of the Cabinet of Ministers of Ukraine of 26 January 2022 No. 53"	The Resolution of the Cabinet of Ministers of Ukraine No. 53 of 26 January 2022 was amended by the Resolution of the Cabinet of Ministers of Ukraine No. 692 "On Amendments to Paragraph 2 of the Resolution of the Cabinet of Ministers of Ukraine of 26 January 2022 No. 53" of 13 June 2024. According to these amendments, the entry into force of the Resolution No. 53 was postponed, and accordingly the Resolution No. 53 was supposed to enter into force on 03 May 2025. The notified draft Resolution of the Cabinet of Ministers of Ukraine "On Amendments to Paragraph 2 of the Resolution of the Cabinet of Ministers of Ukraine of 26 January 2022 No. 53" proposes delaying the entry into force of the Resolution No. 53, postponing its entry into force until 03 May 2026. This will enable the completion of the measures necessary to carry out conformity assessment of all products subject to the relevant Technical Regulations. United States of America	19/03/2025	<a href="#">G/TBT/N/USA/1388/Rev.1/Add 1</a>	United States Classes, Standards, and Grades for Poultry	This document extends the comment period of the 16 January 2025, notice and request for comments (notified as G/TBT/N/USA/1388/Rev.1) on revisions to the United States Classes, Standards, and Grades for Poultry (the Poultry Standards). The last minor revision to the Poultry Standards occurred in 2018, but the last substantial revision prior to that occurred in 1998. Since then, poultry production and quality assessment methods have changed significantly, as have consumer preferences. The comment period for the notice originally published on 16 January 2025 (90 FR 4712) is extended for 60 days. Comments must be submitted on or before 16 May 2025.90 Federal Register (FR) 12523, 18 March 2025: <a href="https://www.gpo.gov/fdsys/pkg/FR-2025-03-18/html/pdf/2025-04545.pdf">https://www.gpo.gov/fdsys/pkg/FR-2025-03-18/html/pdf/2025-04545.pdf</a> <a href="https://www.gpo.gov/foia/content/pkg/FR-2025-03-18/pdf/2025-04545.pdf">https://www.gpo.gov/foia/content/pkg/FR-2025-03-18/pdf/2025-04545.pdf</a> This current and the previous action notified as G/TBT/N/USA/1388/Rev.1 are identified by Docket Number AMS-LP-24-0072. The Docket Folder is available on Regulations.gov at <a href="https://www.regulations.gov/docket/AMS-LP-24-0072/document">https://www.regulations.gov/docket/AMS-LP-24-0072/document</a> and provides access to primary documents as well as comments received. Documents are also accessible from Regulations.gov by searching the Docket Number. WTO Members and their stakeholders are asked to submit comments to the USA TBT Enquiry Point. Comments received by the USA TBT Enquiry Point from WTO Members and their stakeholders by 4pm Eastern Time on 16 May 2025 will be shared with USDA and will also be submitted to the Docket on Regulations.gov if received within the comment period. United States of America	20/03/2025	<a href="#">G/TBT/N/USA/2046/Rev.1/Add.7</a>	Climate Protection Program (CPP) 2025 Temporary Rule	On 16 November 2024, the Environmental Quality Commission adopted rules to establish the Climate Protection Program in Oregon, as OAR Chapter 340, Division 273. On 13 March 2025, the Commission adopted temporary rule OAR-340-273-0400. The temporary rule amendment was needed to implement the correct and intended methodology for the one-time distribution of additional 2025 compliance instruments. This temporary rule does not introduce any policy changes. Materials for the temporary rulemaking are available on the Environmental Quality Commission website. Climate Protection Program Temporary Rules (Action) The Oregon Department of Environmental Quality (DEQ) proposed a temporary rule amendment to the recently adopted Climate Protection Program. The temporary rule amendment was needed to implement the correct and intended methodology for generating additional 2025 compliance instruments. This temporary rule does not introduce any policy changes. Attachment Alt em Presentation SlidesThe Climate Protection Program sets an enforceable declining cap on greenhouse gas emissions from fossil fuels used throughout Oregon, including diesel, gasoline, and natural gas. The program is designed to reduce these emissions by 50% by 2035 and 90% by 2050. In addition to significantly reducing climate pollution, the program: Supports reductions in other types of air pollution. Improves public health in Oregon communities, particularly environmental justice communities most impacted by pollution and climate change. Prioritizes equity by promoting benefits and alleviating burdens for these communities including communities of color, tribal communities, rural communities, and communities experiencing lower incomes. Provides regulated parties with compliance flexibility options to manage their costs. Supports a strong economy. Please visit the Climate Protection Program website, sign up to receive updates here, or contact the program at CPP.INFO@deq.oregon.gov for more information. United States of America	24/03/2025	<a href="#">G/TBT/N/USA/2189</a>	Post-consumer Recycled Plastic Content in Plastic Beverage Containers	<p>Proposed Implementation - In 2022, the Maine Legislature passed Public Law Chapter 742 "An Act To Promote a Circular Economy through Increased Post-consumer Recycled Plastic Content in Plastic Beverage Containers." A circular economy is a model system where production, consumption, and recycling are intertwined together to ensure that materials never become waste but rather are reused thus reducing the environmental impact of human activities. This law works towards a circular economy by setting post-consumer recycled content usage requirements for initiators of deposits (IOD) and spirits manufacturers in the plastic beverage container industry. The reporting requirements in this law mandate that IODs and spirits manufacturers annually submit a report to Maine DEP detailing the amount of post-consumer recycled (PCR) plastic and overall percentages of plastic usage in beverage containers sold, offered for sale, and distributed in the previous year. It also establishes a waiver process and fee structure within the program to aid the department in measuring and ensuring compliance. Maine is one of just a handful of states that have passed laws requiring the usage of post-consumer recycled content to support the long-term sustainability of Maine's municipal recycling programs and beverage container redemption programs. The DEP will hold a stakeholder meeting on the topic of post-consumer recycled content in plastic beverage containers on 23 April 2025 from 9:00 am to 12:00 pm Eastern Time. As a reminder, the meeting provides an opportunity to share comments and allow for discussion of those comments. The stakeholder meeting will be held in Room 101 of the Deering Building at 90 Blossom Lane, Augusta, Maine, and will also be available virtually. To RSVP for a stakeholder meeting, please email recycledcontent@maine.gov to receive a registration link. The DEP will use this meeting to solicit and accept feedback from all interested parties regarding program and rule development.</p> <p>This document further delays the effective date of a recently published final rule (notified as G/TBT/N/USA/552/Rev.3/Add.1) amending the test procedures for central air conditioners and heat pumps/As of 20 March 2025, the effective date of the rule amending 10 CFR parts 429 and 430 published in the Federal Register at 90 FR 1224 on 7 January 2025, is delayed until 20 May 2025. The purpose of the proposed action is to amend the regulation to replace the crude fiber requirement for pet and specialty pet food product labels with a required maximum guarantee of dietary fiber content. Currently, all commercial animal feed products are required to list a maximum crude fiber guarantee on product labels. The amendment being considered will be limited to pet and specialty pet food only and does not impact labeling requirements for other categories of commercial feed, which will still require a maximum crude fiber</p>	Plastic beverage containers; Environmental protection (ICS code(s): 13.020); Beverages (ICS code(s): 67.160); Plastics (ICS code(s): 83.080)	13.020 - Environmental protection; 67.160 - Beverages; 83.080 - Plastics	
United States of America	24/03/2025	<a href="#">G/TBT/N/USA/552/Rev.3/Add.3</a>	Energy Conservation Program: Test Procedure for Central Air Conditioners and Heat Pumps	<p>Revision of the Mandatory Standard SI 900 part 2.24, dealing with refrigerating appliances, ice-cream appliances and ice makers, to be replaced with SI 60335 part 2.24. This proposed Standard adopts both the International Standard IEC 60335-2-24 – Edition 8.0: 2020-09 and the American Standard UL 60335-2-24 – Second edition: April 28, 2017, and all its updates up until 27 February 2020, and allows for compliance with either. The major differences between the old standard and this proposed revision are due to the new editions of the adopted standards. All sections of the proposed standard will be mandatory except in Section 7.1 "Addition" of Chapter B - The American Route of Compliance - the words "the letters SN, N, ST, or indicating the climatic class of the appliance", i.e. the requirement to mark climate suitability. Both the old standard and the new proposed standard will apply from the date of entry into force of this revision for a transition period of two years. During this time, products are required to comply with either the old or the standards.</p>	Central air conditioners and heat pumps; Air conditioning machines incorporating a refrigerating unit and a valve for reversal of the cooling-heat cycle "reversible cycle" "reversible heat pumps" (excl. of a kind used for persons in motor vehicles and self-contained or "split-system" window or wall air conditioning machines) (HS code(s): 841581); Heat pumps (excl. air conditioning machines of heading 8415) (HS code(s): 841861); Product and company certification.	841861 - Heat pumps (excl. air conditioning machines of heading 8415); 841581 - Air conditioning machines incorporating a refrigerating unit and a valve for reversal of the cooling-heat cycle "reversible cycle" "reversible heat pumps" (excl. of a kind used for persons in motor vehicles and self-contained or "split-system" window or wall air conditioning machines); 841861 - Heat pumps (excl. air conditioning machines of heading 8415); 841581 - Air conditioning machines incorporating a refrigerating unit and a valve for reversal of the cooling-heat cycle "reversible cycle" "reversible heat pumps" (excl. of a kind used for persons in motor vehicles and self-contained or "split-system" window or wall air conditioning machines)	03.120.20 - Product and company certification. European Union	25/03/2025	<a href="#">G/TBT/N/EU/1127</a>	Draft Commission Implementing Regulation implementing Regulation (EC) 595/2009 of the European Parliament and of the Council as regards the technical requirements of on-board devices for the monitoring and recording of fuel and energy consumption and mileage of certain heavy-duty vehicles, and for determining and recording the payload or total weight thereof	<p>Commission Implementing Regulation (EU) 595/2009 requires the Commission to adopt implementing measures on the technical requirements for the fitting of on-board devices for the monitoring and recording of fuel and/or energy consumption and mileage of motor vehicles of categories M2, M3, N2 and N3, and for determining and recording the payloads or total weight of vehicles meeting the characteristics set out in point (a), (b), (c) or (d) of the first subparagraph of Article 2(1) of Regulation (EU) 2019/1242 of the European Parliament and of the Council and of their combinations with category O3 and O4 vehicles, including the transmission of data between vehicles within a combination, as necessary. The aim of the implementing regulation is to put in place a mechanism to assess the real-world representativeness of the CO2 emissions and energy consumption values determined pursuant to Regulation (EU) 2017/2400. The most reliable way to ensure the real-world representativeness of those values is by using data from on-board fuel and/or energy consumption monitoring devices. The regulatory procedure to determine CO2 emissions under Regulation (EU) 2017/2400 take into consideration the mission profiles, loads, fuel type, and total vehicle mass. Therefore, the fuel consumption and mileage values should also be recorded based on the total vehicle weight and vehicle speed, to provide for a suitable comparison. This Regulation takes into consideration the various powertrains which can be approved under Regulation (EC) 595/2009 and assesses the accuracy of the device based on tests conducted under Regulation (EU) 2017/2400 and Regulation (EU) 582/2011.</p>	Heavy duty vehicles: transport CO2 emissions; Transport exhaust emissions (ICS 13.040.50); Commercial vehicles (ISC 43.080)		13.040.50 - Transport exhaust emissions; 43.080 - Commercial vehicles

United States of America	26/03/2025	<a href="#">G/TBT/N/USA/2170/Add.1</a>	<p>Review of New Source Performance Standards for Stationary Combustion Turbines and Stationary Gas Turbines; Reopening of Comment Period</p> <p>On 13 December 2024, the U.S. Environmental Protection Agency (EPA) proposed amendments to the new source performance standards (NSPS) for new, modified, and reconstructed stationary combustion turbines and stationary gas turbines. The EPA is reopening the public comment period for this proposed rule (notified as G/TBT/N/USA/2170) to allow additional time for stakeholders to review and comment on the proposal. The initial 90-day public comment period, which ended 13 March 2025, is being reopened for an additional 21 days, from 25 March 2025 to 15 April 2025. The comment period for the proposed rule published on 13 December 2024, at 89 FR 101306, is reopened. Comments must be received on or before 15 April 2025. 90 Federal Register (FR) 13576, 25 March 2025, Title 40 Code of Federal Regulations (CFR) Part 60 https://www.govinfo.gov/content/pkg/FR-2025-03-25/html/2025-04990.htm https://www.govinfo.gov/content/pkg/FR-2025-03-25/pdf/2025-04990.pdfThis reopening of comment period and the proposed rule notified as G/TBT/N/USA/2170 are identified by Docket Number EPA-HQ-OAR-2024-0419. The Docket Folder is available on Regulations.gov at https://www.regulations.gov/submit/EPA-HQ-OAR-2024-0419/document and provides access to primary and supporting documents as well as comments received. Documents are also accessible from Regulations.gov by searching the Docket Number. WTO Members and their stakeholders are asked to submit comments to the USA TBT Enquiry Point. Comments received by the USA TBT Enquiry Point from WTO Members and their stakeholders by 4pm Eastern Time on 15 April 2025 will be shared with EPA and will also be submitted to the Docket on Regulations.gov if received within the comment period.</p>	Stationary combustion turbines and stationary gas turbines; Air quality (ICS code(s): 13.040); Internal combustion engines (ICS code(s): 27.020); Gas and steam turbines. Egypt	27/03/2025	<a href="#">G/TBT/N/EGY/90/Add.2</a>	The draft of the Egyptian Standard ES 1562 for" liquid synthetic detergents for manual dishwashing"	Products covered: ICS code(s): 71.100.40(Surface active agents).This addendum concerns the notification of the draft of the Egyptian Standard ES 1562 for" liquid synthetic detergents for manual dishwashing" ( 10 pages, in Arabic).This standard cancels and supersedes its last version in 2015 and its partial amendment in 2023. It should be noted that the Ministerial Decree No. 535/2015 (2 pages, in Arabic) which was formerly notified in G/TBT/N/EGY/90 dated 20 August 2015, the Ministerial Decree No. 499/2023 (4 pages, in Arabic) which was formerly notified in G/TBT/N/EGY/90/Add.1 dated 11 March 2024, mandated among others the earlier versions of this Standard.Worth mentioning is that this standard complies with the following:Regulation (EC) No 648/2004 of the European Parliament and of the council on detergentsRegulation (EC) No 1907/2006 - Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Regulation (EC) No 1272/2008 - classification, labelling and packaging of substances and mixtures (CLP) JIS K 3370/2019ISO 2238/2021Producers and importers are kept informed of any amendments in the Egyptian standards through the publication of administrative orders in the official gazette.Date of adoption: to be determined Date of entry into force: to be determined Agency or authority designated to handle comments and text available from:National Enquiry PointEgyptian Organization for Standardization and Quality16 Tadreeb El-Modarbeen St., Ameriya, Cairo - EgyptE-mail: eos@eos.org.eg , eos.tbt@eos.org.egWebsite: http://www.eos.org.egTel: + (202) 22845528Fax: + (202) 22845504  The proposed regulations notified in G/TBT/N/CAN/648 (dated June 30, 2021) introduced new labelling requirements in the Natural Health Products Regulations for natural health products (NHPs) sold in Canada. The final measures of these regulations were notified in G/TBT/N/CAN/648/Add.2 on July 11, 2022. The new labelling requirements come into force on June 21, 2025. NHPs that received their licence on or after this date must comply immediately, whereas NHPs that have already received a licence before June 21, 2025, were provided an additional three years (i.e. until June 21, 2028) to comply with the new labelling requirements. The Exemption Order in Respect of Labelling Requirements for Certain Natural Health Products (the Order) will temporarily exempt NHPs that receive a licence on or after June 21, 2025, and that are not yet labelled with the new requirements in the Natural Health Products Regulations, from the new labelling requirements. The exemption is conditional on the NHPs meeting, when they are sold, the NHP labelling rules in the Natural Health Products Regulations as they read on June 20, 2022. However, the condition will not apply when an NHP is sold to a manufacturer or distributor. This exemption will align the deadline to comply with the new labelling requirements for all NHPs. The Order was published on March 26, 2025, comes into force on June 21, 2025, and will be repealed on June 21, 2028. Text of the Order is publicly available, in both English and French, via the links provided above. Burundi	31/03/2025	<a href="#">G/TBT/N/BDI/582</a>	Farine de patate — spécifications	Ce projet de norme Burundaise prescrit les exigences, les méthodes d'échantillonnage et d'essai pour la farine de patate douce obtenue par broyages des patates douces séchées (Ipomoea batatas. Lam) de la famille de Convolvulaceae ) destinée pour la consommation humaine.  In June 2019, the U.S. Consumer Product Safety Commission (CPSC or Commission) published a consumer product safety standard for stationary activity centers pursuant to section 104 of the Consumer Product Safety Improvement Act of 2008 (CPSIA). The Commission's mandatory standard incorporates by reference ASTM F2012-18e1, Standard Consumer Safety Performance Specification for Stationary Activity Centers. The CPSIA sets forth a process for updating mandatory standards for durable infant or toddler products that are based on a voluntary standard, when a voluntary standards organization revises the standard. In November 2024, ASTM published a revised voluntary standard. This direct final rule updates the mandatory standard for stationary activity centers to incorporate by reference the 2024 version of ASTM F2012, which the Commission has allowed to become the mandatory standard under section 104. The purpose of the direct final rule is to conform the Code of Federal Regulations (CFR) to the correct version of ASTM F2012 to provide an accurate reference to the standard that will be enforced as a mandatory rule. The rule is effective on 5 July 2025, unless the Commission receives a significant adverse comment by 28 April 2025. If the Commission receives such a comment, it will publish a notice in the Federal Register, withdrawing this direct final rule before its effective date. The incorporation by reference of the publication listed in this rule is approved by the Director of the Federal Register as of 5 July 2025.90 Federal Register (FR) 13833, 27 March 2025; Title 16 Code of Federal Regulations (CFR) Part 1238 <a href="https://www.govinfo.gov/content/pkg/FR-2025-03-27/html/2025-05239.pdf">https://www.govinfo.gov/content/pkg/FR-2025-03-27/html/2025-05239.pdf</a> read-only copy of the existing, incorporated standard is available for viewing, at no cost, on the ASTM website at: <a href="https://www.astm.org/READINGLIBRARY/">https://www.astm.org/READINGLIBRARY/</a> . A read-only copy of the revised standard (ASTM F2012-24), including red-lined versions that identify the changes from the 2018 versions to the 2024 version, is available, at no cost, on ASTM's website at: <a href="https://www.astm.org/CPSC.htm">https://www.astm.org/CPSC.htm</a> . Interested parties can also download copies of the standards by purchasing them from ASTM International, 100 Barr Harbor Drive, P.O. Box C700, West Conshohocken, PA 19428-2959; phone: +1 610-832-9585; <a href="https://www.astm.org">https://www.astm.org</a> . Alternatively, interested parties can schedule an appointment to inspect copies of the standards at CPSC's Office of the Secretary, U.S. Consumer Product Safety Commission, 4330 East-West Highway, Bethesda, MD 20814, telephone: +1 301-504-7479. This action and previous actions notified under the symbol G/TBT/N/USA/1372 are identified by Docket Number CPSC-2018-0015. The Docket Folder is available on Regulations.gov at <a href="https://www.regulations.gov/docket/CPSC-2018-0015/document">https://www.regulations.gov/docket/CPSC-2018-0015/document</a> and provides access to primary and supporting documents as well as comments received. Documents are also accessible from Regulations.gov by searching the Docket Number. WTO Members and their stakeholders are asked to submit comments to the USA TBT Enquiry Point by or before 4pm Eastern Time on 28 April 2025. Comments received by the USA TBT Enquiry Point from WTO Members and their stakeholders will be shared with CPSC and will also be submitted	Fruits et légumes et produits dérivés en général (Code(s) de l'ICS: 67.080.01)	67.080.01 - Fruits, vegetables and derived products in general
